

Impact of Future Flood Insurance Rate Map Revisions

Six months prior to issuing a new Flood Insurance Rate Map (FIRM) for a community, FEMA issues a Letter of Final Determination (LFD) announcing the pending revision and providing the community time to adopt the revision into their local floodplain ordinances. The LFD signals the end of the public comment and review period and means the revisions have been finalized and are unlikely to change any further before the new issue date. This time is also useful for the insurance and banking industries as it provides the opportunity to assess and plan for potential changes within their book of business or portfolio. This is why MassiveCert analyzes each pending revision and provides this summary of potential impacts to each community. For additional information or detailed, community-focused analysis, email our team at Info@MassiveCert.com. Download this report and sign-up for updates at www.massivecert.com/map-impact.
